

HINCHINGBROOKE BUSINESS PARK

Client: Frogmore
Location: Huntingdon, Cambridgeshire
Size: 400,000 sq ft BI (Offices and Light Industrial)
Completion: Ongoing (started in February 1995)

Anglian Water Central Laboratory

This major 3rd generation business park has been designed to create its own sense of identity. This was achieved by developing a consistent style of buildings and using a limited palette of external materials. The whole site is heavily landscaped.

In addition to masterplanning and infrastructure works, the directors of Breathe Architecture were responsible for the design of the majority of plots in the park over a 12 year period.
